

2013
The City of Palm Springs Green Citizen Award
Nomination Form
Honored at the Annual Arbor Day Celebration

The Green Citizen Award will recognize a citizen of the City of Palm Springs who demonstrates exemplary sustainability practices in our community, at work, at home and/or in daily life. The nominee must have shown excellence in green living and be a resident of Palm Springs. One winner of the Annual City of Palm Springs “Green Citizen” Award will be chosen. The finalist will be announced at the City of Palm Springs City Council meeting on March 20, 2013 at 6 pm at City Hall. Applications are due at 5 p.m. on March 14, 2013.

E-MAIL: _____

Please attach a maximum of one (1) 8.5” X 11” Letter sized page (12 point type) to this form for consideration of the *City of Palm Springs Green Citizen Award*. Please see the examples below to assist in describing the nominee’s efforts.

Energy Usage Reduction

Please describe the nominee’s efforts to educate the public about the importance of energy conservation &/or available renewable & alternative energy sources available to residential & commercial properties.

Waste Reduce, Reuse, Recycle

Please describe the efforts of the nominee to minimize waste & prevent land, water, & air pollution through practices such as recycling, reuse, composting, the use of alternative forms of transportation, & other practices.

Reduced Potable Water Consumption

Please describe the efforts of the nominee to minimize the use of potable water through practices such as stormwater management (i.e. rain gardens, cisterns, drip irrigation, etc.), the use of environmentally safe cleaning products, & other practices.

Green Home Conservation/Renovation

Please describe the efforts of the nominee to conserve energy through renovations &/or practices such as the use of sustainable design, materials, & building techniques, energy efficient lighting, or appliances, low-flow water fixtures, the implementation of recommendations from an energy audit, or the installation of renewable energy & water management technologies.

Sustainable Landscape/Green Roof

Please describe the efforts of the nominee to create resource efficient landscaping, either in a private yard, on a green roof, or in a public open space. Resource efficient landscaping may include the use of plantings that are native, that prevent erosion, or that provide a wildlife habitat.
