Dear Mr Mejia,

Attached please find my suggestions for carving our city into four (4) districts, if that's the path the city chooses.

I tried to balance the population evenly among the four, given the census data provided. On the last sheet, you will see the split is 24.9%, 25.2%, 24.8% and 25.2%. This should allow for the most equal representation among residents.

Also, I tried to keep the neighborhoods intact.

Thank you for giving us the opportunity to have some input in our governance.

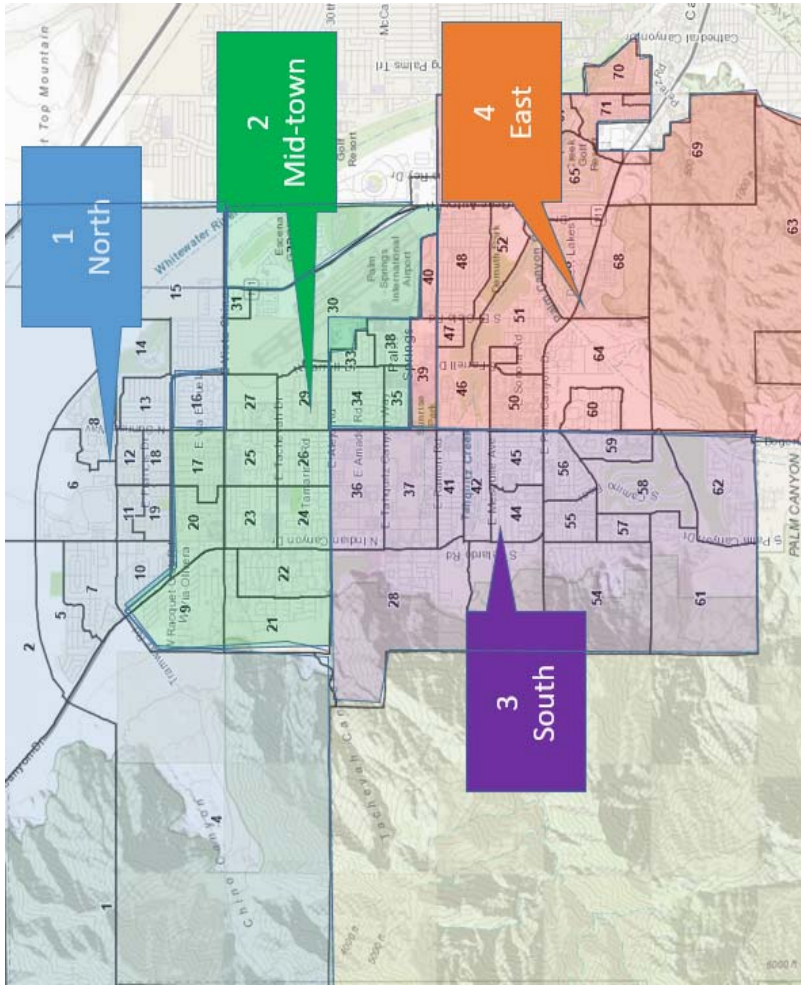

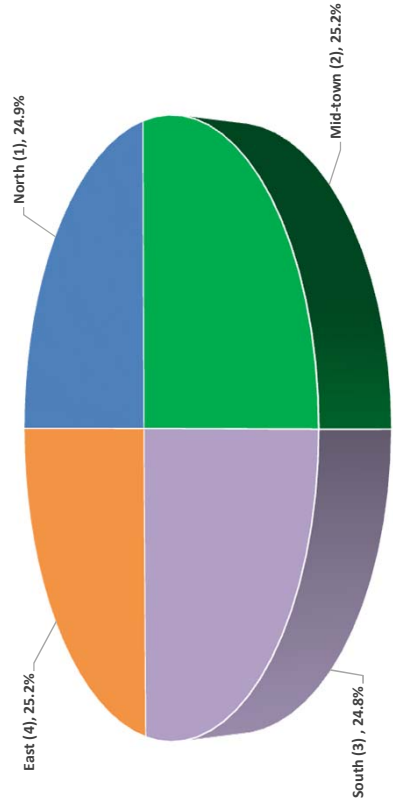

Best wishes,

Adam

**Submitter's Comments about the plan:**

It's the closest we can get to balancing the population count among four districts while keeping as much as possible the neighborhood boundaries intact. See last sheet "summary".

Thank you,
