Update on Bird Scooters

Nov. 29, 2018

Bird Scooters will not be allowed to operate in the City of Palm Springs until the community has a chance to weigh in.

The City Council met in Closed Session tonight and directed the City Attorney to notify Bird Scooters that the company must cease and desist operations in the City of Palm Springs within 24 hours and remove all scooters, until the City has an opportunity to consult the community on this issue.

If Bird Scooters fails to comply, the City Manager has been directed by Council to confiscate and store the scooters as expeditiously as possible under the City's existing ordinances.

Like no place else.™
