City of Palm Springs Launches New User-Friendly App, “myPalmSprings”

June 13, 2019

The City of Palm Springs is pleased to announce the launch of a new user-friendly app dubbed “myPalmSprings,” designed to help residents and visitors easily find important City information and report issues to City Hall.

The new app features areas to report homeless and code compliance issues, vacation rental violations, graffiti, water waste, and much more. In addition, residents and visitors can find flight information from Palm Springs International Airport, information about City Departments, parks and recreation programs, services at the Palm Springs Public Library, special events, City Council, Board and Commission meetings on the City Calendar, links to the City’s social media platforms, the City’s YouTube channel and the latest news releases.

Residents and visitors can download the “myPalmSprings” app in the Apple store or Google Play.

“The City of Palm Springs is always looking for innovative ways to improve our service to residents and visitors,” said City Manager David H. Ready. “With that in mind, we are excited to launch the new myPalm Springs app for anyone looking for the latest news and information from City Hall. I encourage every resident to download and explore the new app, developed with you in mind.”

Like no place else.™
