FOR IMMEDIATE RELEASE

55-HOUR WEEKEND CLOSURES CONTINUE FOR 2ND WEEKEND

60 Swarm Pavement Rehabilitation Project September 25 to September 28

SAN BERNARDINO – The California Department of Transportation (Caltrans) continues the 55-hour lane and connector closures for the State Route 60 (SR 60) Pavement Rehabilitation Project as part of the 60 Swarm to repair deteriorated pavement slabs.

Caltrans has scheduled six weekends of 55-hour lane, ramp and connector closures on westbound SR 60. This weekend will be the second weekend of work. The paving will take place on westbound SR 60 from Interstate 15 (I-15) to Archibald Avenue.

Friday, September 25, 10:00 p.m. through Monday, September 28, 5:00 a.m. (continuous closures):

- Westbound SR 60 will have the #2, 3 and 4 lanes closed between Milliken Avenue to Haven Avenue.
- The southbound I-15 connector to westbound SR 60 will be closed.
- The westbound SR 60 Milliken off and on ramps will be closed.
- The westbound SR 60 HOV and #1 lane will be open to all traffic.
- **The northbound I-15 connector to westbound SR 60 will be open, however intermittent closures of this connector may take place based on traffic impacts.**
- SR 60 eastbound at Market Street in Riverside will have the #4 lane and on ramp closed for drainage work.

Detours

- Southbound I-15 connector to westbound SR 60 closure: Stay on southbound I-15 to Cantu Galleano, exit, go left back to northbound I-15 and continue to westbound SR 60.
- If the northbound I-15 connector to westbound SR 60 is closed, use SR 60 connector eastbound to Van Buren Avenue, exit and turn left back to westbound SR 60.

Ongoing Closures:

- Westbound SR-60 from Country Village Road to Wineville Road, lanes have been reduced from five lanes to three lanes to allow for accelerated pavement work.
- Eastbound SR-60 from Archibald Avenue to Mission Blvd. lanes have been reduced from five lanes to four lanes to allow for accelerated pavement work.
- A traffic reconfiguration is in place on SR-60 from Archibald Avenue to Euclid Avenue during the project allowing daytime work to take place behind k-rail.

The speed limit will be lowered to 55 miles per hour within the project limits. **Signage is posted instructing motorists that the HOV lanes are available for all traffic within the construction zone during the lane closures.** Construction work may cause minor vibrations and noise during construction hours. We appreciate your patience while crews work diligently to complete the project.

Motorists are advised to use State Route 91 (SR-91) and Interstate 10 (I-10) around the 60 Swarm construction to avoid delays. Local businesses are open during the project. For up to date information call the 60 Swarm hotline at 1-833-607-9276. Follow us for the latest information go to www.60swarm.com or [Facebook](#) and [Twitter](#). You can plan your commute and view live traffic conditions using [QuickMap](#) and [planned lane closures](#).
