Jessica Lester	CODE	4:46 PM	Arrived at the property at 1646 and observed the home from the street in front of the location. When I arrived I didn't observe any violations for music or noise. There was one car in the driveway and a few in the street. After I took my initial picture someone came out and I was no longer able to make observations. The occupant stated that the car in the driveway was theirs and two of them on the street. She was moving one of the two on the street into the driveway. I went over the rules regarding vacation rentals and noise which they understood. She stated that there were 6 people currently in the home. I contacted the RP and advised them of my findings and they were upset that I didn't knock on all the doors in the neighborhood to find out whos cars were on the street and have them moved. I told her I wasn't able to do that and can't make assumptions regarding cars on the street. I told her I would swing by again later to observe the noise when they aren't aware I'm there. Contacted LC for the property and explained the complaint and my observations. She said she would reach out to them to discuss the issues. No violation, no citation.	NO
