Thank you for this opportunity. I'm sorry I saw the "call" so late. Better renditions can be made at a later date.

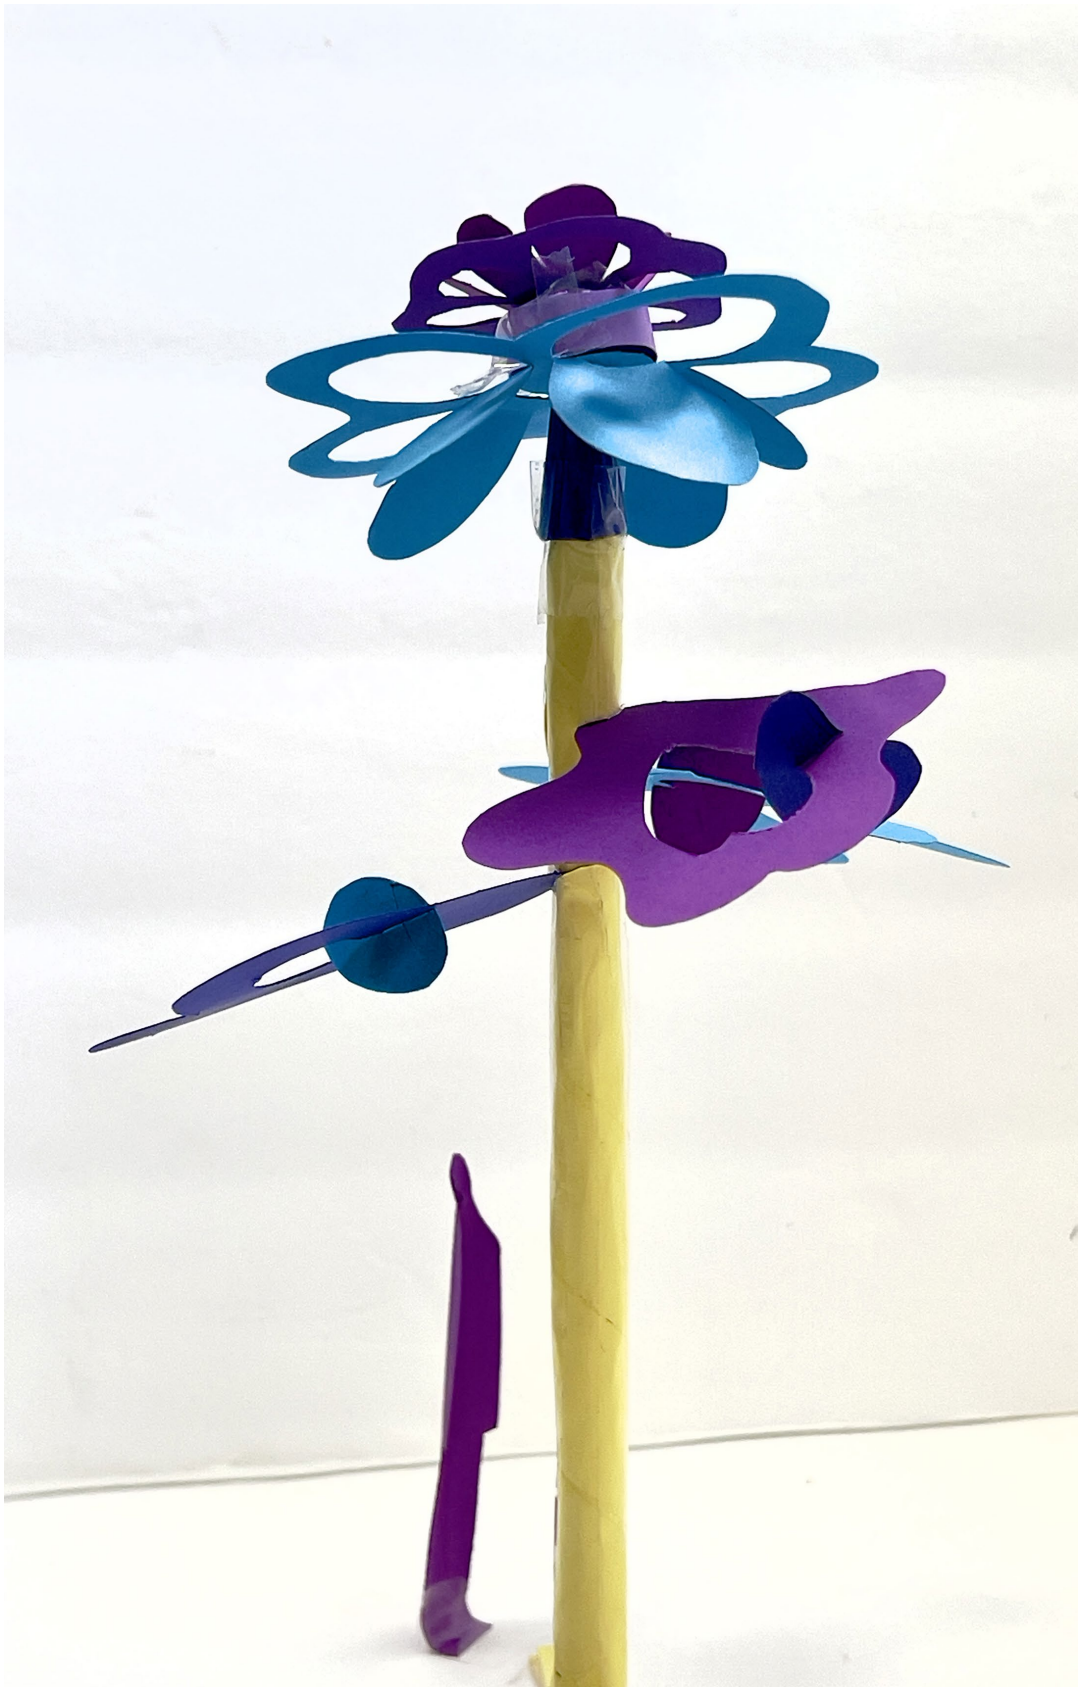

The sculpture is 14 foot tall on a cylinder that is 7' in diameter and approximately 8 feet wide...I have access to 16 structural engineers. I'd like school kids to design the cylinder (stem) with kind words as I can have them laser cut on a Tube laser machine at GK Machine which is my brother and sister's 170,000 square foot shop.

I've been a public artist the past 10 years and in galleries for over 36 years.

Thank You for your time.

Much appreciated,

Grace

ATTACHMENT B: QUOTE/PRICING SCHEDULE

1. Quote your best price, including freight, for each item. All blanks in the Quote/Pricing Schedule **MUST** be completed. In case of a discrepancy between the Unit Price and the Total, the Unit Price shall be considered correct. Contractor will be required to meet the City's Insurance Requirements prior to executing the work.
2. In submitting this quote, the vendor certifies that the prices in this quote have been arrived at independently, without consultation, communication, or agreement with any other vendor or competitor, for the purpose of restricting competition with regard to prices.
3. If shipping is required shipping shall be quoted FOB Destination, Freight Included.
4. **DISBURSEMENT SCHEDULE: 40% of contract amount will be disbursed upon contract execution, 40% of contract amount will be disbursed after all required permits have been issued and the artwork is fifty percent complete (to be verified with photographs), 20% of contract amount will be disbursed upon completion, installation, and acceptance by City).**
